WEB DEVELOPMENT SKILLS

I have learned the basics of programming in secondary school. The first language I used was C.

In secondary school, I have also learned how to use HTML, CSS, PHP, and MySQL. At university I attended two courses about web design and have learned how to use SASS and JavaScript. On my own I have learned how to use TypeScript and React.

Skill	I have used it since:
HTML, CSS, C	2009
PHP, MySQL	2012
Sass, JavaScript	2018
React, TypeScript	2022

FORMER PROJECTS

I am determined to perfect and develop my web development skills daily, whether it is by creating new projects, improving the existing code or studying innovations in web design. It is best seen in my daily contributions on GitHub and CodePen pages.

I strive to create projects that are interesting to my potential clients. My web pages are responsive and developed with special regard to successful UI/UX.

My projects display my familiarity with developing eCommerce pages, brochures for various firms or subjects, simpler browser games and my ability to use various external information (for example API data) and apply them to my web pages.

WORK EXPERIENCE

IT teacher (2 years) – improved my knowledge of programming (Python), internet and computers as well as provided me with the experience of teaching young students computer science.

school counselor (5 years) – team-leading skills (from managing a team of 50 people), ability to work both individually and in team, taking responsibility, punctuality, speed, experience in supervising and leading bigger projects as well as simultaneous work on multiple projects.

EDUCATION

2020 – today Multiple online courses and self-education in web design (for example: freeCodeCamp course, pages like w3schools, Mdn Web Docks, Frontend Mentor, youtube tutorials...)

2013 – 2018 Faculty of humanities and Social Sciences in Osijek (Major in Pedagogy and History)

- Passed two courses dealing with contemporary web design (Sass and JavaScript)

2009 – 2013 Mathematics and Natural Sciences Grammar School in Osijek

- the basics on programming and web design (C, HTML, CSS, PHP, MySQL)
-
